**TARIFF FORMAT**

ORIGINAL

Sheet Numbering. Sheet numbers appear in the upper right hand corner of the sheets. Sheets are numbered sequentially. From time to time new sheets may be added to the tariff. When a new sheet is added between existing sheets, a decimal is added to the preceding sheet number. For example, a new sheet added between sheets 5 and 6 would be numbered 5.1.

Sheet Revision Numbers. Revision numbers also appear in the upper right corner of sheets. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th Revised Sheet No. 14 cancels the 3rd Revised Sheet No. 14.

Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level, as shown by the following example:

2  
2.1  
2.1.1  
2.1.1.A  
2.1.1.A.1  
2.1.1.A.1.(a)  
2.1.1.A.1.(a).I  
2.1.1.A.1.(a).I.(i)  
2.1.1.A.1.(a).I.(i).(1)

C h e c k . When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current one on file with the Commission.

The amount of deposit may exceed this total when services are provided for shorter periods of time or special occasions. In addition, McLeodUSA may impose separate deposits for different types of telecommunications services.

Written notice shall be mailed advising the Customer of any new or additional deposit requirement, and the Customer shall have ten (10) calendar days from the date of mailing to comply. The new or additional deposit is payable at the address specified in Section 2.7.4.

2.7.3.A Abnormal Toll Usage

For customers with at least six (6) consecutive months of service, "abnormal toll usage" is defined as at least a twenty-five percent (25%) increase in monthly usage charges amounting to at least twenty dollars (\$20). The Customer's average monthly bills for not less than the three (3) prior months shall be used in determining the increase. For customers with less than six (6) consecutive months of service, "abnormal toll usage" is defined to exist when one (1) month's service exceeds the deposit attributable to the service by twenty-five percent (25%) amounting to at least twenty dollars (\$20).

### 3.0 Description of Services Offered (cont'd)

#### 3.7 800 Services

##### 3.7.1 Nature of Services

Carrier 800 services are inward WATS services that permit intrastate calls to a customer's station in one location from stations in diverse geographical locations, and for which the Carrier customer is billed for the calls rather than the call's originator. Unless otherwise specified, all Carrier 800 calls are subject to a 30-second average connect time (i.e., total monthly minutes of use divided by total monthly calls must equal at least 30 seconds) for a given terminating service group. All calls are rounded up to the next higher 6-second increment. In the event that 800 calls do not meet the 30-second average connect time requirement, billable usage will be increased by a surcharge equal to the necessary number of minutes at the average cost per minute to meet the 30-second requirement. In addition, Customers may also order Originating ANI Sorting, which provides the Customer with a detailed monthly analysis of the originating telephone numbers of those placing 800 calls.

##### 3.7.1.A McLeod Standard 800 Service

McLeod Standard 800 Service provides Customers with an 800 number using the 1-800-XXX-XXXX format. When switching from their former 800 service provider to McLeod standard 800 service, Customers may retain their existing 800 number. If the Customer desires, the Customer may order area code blocking, which permits calls originating from area codes designated by the Customer to be blocked.

If the following requirements are met, the customer is a "qualifying customer" for purposes of this feature package:

- a. The customer must have selected McLeodUSA as its presubscribed carrier for local, interLATA, intraLATA, and international services, and must enter into a 60-month agreement for these services on or after May 1, 2001; and

Qualifying customers who subscribe to Caller ID (Number Only) or Caller ID (Name and Number) service will receive a credit at least equal to the monthly price of the Caller ID option received, for each of the first three months of service. This offer is limited to areas where the local, long distance, Caller ID, and data services mentioned above are available.

**3 for \$5**

Customers enrolling with a 18, 36 or 60 month term will be able to select features marked with "★," which are available for 3 for \$5.00 in lieu of other feature discounts.
